Tobacco Stocks Report

as of July 1, 1965

U. S. DEPARTMENT OF AGRICULTURE
CONSUMER AND MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

Stocks of leaf tobacco, summary by types	15

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks larger than a year ago

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 5,228 million pounds as of July 1, 1965. This is 267 million pounds more than the figure a year earlier (4,961 million), and about 536 million above 2 years ago. Stocks of flue-cured and burley, the two most important kinds from the standpoint of overall volume, were up 7.1 percent and 1.0 percent, respectively. Stocks of Maryland, fire-cured, dark air-cured, and imported cigar leaf were also higher than a year earlier. About 55 million pounds, consisting mostly of Maryland and Puerto Rican tobaccos, was marketed by growers during the April-June quarter.

Stocks as of July 1, 1965, included about 1,327 million pounds (farm-sales weight) of leaf tobacco under Government loans (1,068 million on July 1, 1964). The increase was due to the larger stocks of flue-cured, burley, and Maryland leaf, as loan holdings decreased in all other kinds. These loan stocks were divided as follows: flue-cured, 918.5 million pounds; burley, 323.0 million; Maryland, 19.3 million; fire-cured, 40.8 million; dark air-cured, 21.7 million; and cigar leaf, 4.1 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks-reporting purposes.

Flue-cured, burley, and Maryland stocks
larger than a year ago;
Oriental also higher

Stocks of flue-cured tobacco as of July 1, 1965, totaled 2,555 million pounds -- 169 million larger than holdings reported on July 1 last year (2,386 million) and a record high carryover. The marketing year for flue-cured is on a July-June basis, and total disappearance (exports plus domestic disappearance) during the year just ended was 1,219 million pounds (1,267 million for the previous year), based on July stocks. Indicated domestic consumption of 779 million pounds was 11 million above the previous year (768 million). The export volume of 440 million pounds was 58 million pounds below last year (498 million).

Burley tobacco stocks this July 1 were reported as 1,584 million pounds -- 14 million more than the holdings on July 1, 1964 (1,570 million).

Inventories of Maryland tobacco on July 1, 1965, totaled 103.6 million pounds -- 13.2 million over those reported last July 1 (90.4 million). Marketing of the 1964 crop of Maryland began on April 21, 1965, and deliveries through June 30 totaled 37.2 million pounds -- about 8.7 million more than during the corresponding period of the previous season (28.5 million).

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) were reported as 316.9 million pounds on July 1, 1965. This was about 30.6 million more than those on hand a year earlier (286.3 million).

DARK TOBACCO STOCKS

Fire-cured and dark air-cured inventories
slightly above those reported a year ago

Stocks of fire-cured leaf, reported at 133.8 million pounds on July 1, 1965, were just 2 million pounds higher than holdings on the previous July 1. Increases were reported in the Kentucky-Tennessee types, but the Virginia type was down. Fire-cured stocks on this July 1 were as follows: Virginia, 19.0 million pounds; Eastern District Kentucky and Tennessee, 90.2 million; and Western District, 24.5 million.

Dark air-cured holdings of 71.6 million pounds were only 0.3 million above the July 1 inventories last year (71.3 million). Inventories of dark air-cured on July 1, 1965, by types were as follows: One Sucker, 42.6 million pounds; Green River, 24.2 million; and Virginia sun-cured, 4.8 million.

CIGAR LEAF STOCKS

Domestic cigar-leaf stocks lower Foreign-grown cigar-leaf up sharply

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 326.3 million pounds on July 1, 1965. This was 4.0 million pounds less than the holdings of last July 1 (330.3 million). Deliveries of the 1964-65 crop of Puerto Rican tobacco were completed during the quarter. Stocks of foreign-grown cigar-leaf on hand as of July 1 totaled 132.0 million pounds (farm-sales weight) -- 41.5 million higher than holdings a year earlier (90.5 million pounds).

Holdings of the cigar-filler types as of July 1, 1965, totaled 232.4 million pounds -- down 1.2 million from the previous July 1 (233.6 million). Stocks of Pennsylvania and Ohio filler were lower, but Puerto Rican was considerably higher than a year earlier. Inventories of cigar-filler stocks by types on this July 1 were as follows: Pennsylvania Seedleaf, 143.4 million pounds; Ohio filler, 18.5 million; and Puerto Rican, 70.5 million.

Cigar-binder stocks totaled 75.3 million pounds on July 1, 1965 -- a decrease of 1.8 million from the same date last year (77.1 million). Stocks of Southern Wisconsin were higher, but all other types were a little lower than last year. Connecticut Broadleaf stocks this July 1 were 15.2 million pounds; Connecticut Valley Havana Seed, 6.9 million; Southern Wisconsin, 25.7 million; and Northern Wisconsin, 27.5 million.

Shade-grown cigar-wrapper stocks as of July 1, 1965, totaled 18.6 million pounds, consisting of 11.8 million of Connecticut Valley Shade and 6.8 million of Georgia-Florida Shade. Connecticut Valley stocks showed a small increase from last July, while Georgia-Florida was smaller by 1.2 million pounds. The marketing year for cigar-wrapper is on a July-June basis, and total disappearance during the year just ended was 22.0 million pounds (21.7 million during the previous marketing year), based on July 1 stocks. Exports, at 4.3 million pounds, were down 2.0 million from last year, while domestic consumption rose 2.4 million to a record 17.7 million pounds.

Stocks of Cuban (Havana) leaf, reported at 11.9 million pounds (farm-sales weight), were down 5.4 million from a year ago (17.3 million). Philippine Islands (Manila) stocks at 41.7 million pounds, were more than double those on hand a year ago (16.7 million). Stocks of Indonesian leaf were 8.4 million pounds; Brazilian, 17.2 million; Colombian, 19.7 million; Dominican Republic, 20.2 million; Paraguay, 4.1 million; and other foreign-grown, 8.7 million.

TOBACCO SHEET

Leaf represented in stocks of tobacco sheet shows increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 9.6 million pounds (reporting weight) compared with 7.4 million on the previous July 1. Of the total this July 1, 7.2 million pounds were for use in cigarettes and smoking tobacco, and 2.4 million for cigar binder, including a very small quantity for wrappers (see table 5).

Cigarette and smoking tobacco	90	1.333	1.466	1.10			

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, July 1, 1965, compared with other quarters 1/

FARM-SALES WEIGHT

Type name	U.S. type number	July 1,			April 1,	January 1,	October 1,

^{1/} Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

^{2/} The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

^{3/} Subject to revision.

^{4/} August 1 estimate, U. S. Crop Reporting Board, SRS.

Table 4. -Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, July 1, 1965 compared with July 1, 1964, and April 1, 1965

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet. 2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46. 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

* Revision.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealers holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 11.

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1964, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 11.

* Revision.
